How to Apply to The CLIMB Program™ at UB

**PhD Graduate Student** applicants should apply to UB through one of the following programs: Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS), the Medical Scientist Training Program (MSTP), individual departmental PhD programs within the School of Medicine and Biomedical Sciences, the College of Arts and Sciences (Psychology, Biological Sciences), School of Pharmacy and Pharmaceutical Sciences (Pharmaceutical Sciences), or Roswell Park Cancer Institute. Follow the instructions for applying to the graduate program of your choice, by visiting their websites. For more information on graduate programs, see http://www.grad.buffalo.edu.

In your personal statement where you discuss your career goals, mention your interest in and the reasons for becoming a CLIMB Scholar.

**Undergraduate Students** interested in participating in the CLIMB UP for Summer Research Program should fill out an application available at the CLIMB website. Applications are accepted through March every year.

**FUNDING**

School of Medicine and Biomedical Sciences

ASPET Summer Undergraduate Research Fellowship Program

FASEB MARC Summer Research Opportunity Program

CLIMB to the top
by participating in a groundbreaking new program that sculpts you into a leader in the biosciences.

Program Highlights

Individualized Curricula
Customized to your academic interests and needs.

Professional Development Catalyst Series
Practice the skills you will need as a professional scientist.

Research Communication Workshops
Sharpen your writing, critical reading, and presentation skills.

Personal Mentors
Get help when you need it and accelerate your graduate career.

Scientific Skill Building
Learn how to successfully navigate your coursework, choose a thesis advisor, and write papers and grant applications on your way to your PhD.

The CLIMB Program™ at UB supports and mentors students to enter and successfully complete PhD programs. It is available to students in any of the following PhD graduate programs in the biomedical sciences at UB:

- College of Arts & Sciences
  - Psychology • Biological Sciences
- Roswell Park Cancer Institute
  - All PhD Programs
- School of Medicine and Biomedical Sciences
  - Biochemistry • Interdisciplinary Graduate Program in Biomedical Sciences (IGPBS) • Microbiology and Immunology • Neuroscience • Oral Biology • Pathology and Anatomical Sciences • Pharmacology and Toxicology • Physiology and Biophysics • Structural and Computational Biology
- School of Pharmacy and Pharmaceutical Sciences
  - Pharmaceutical Sciences

"The CLIMB Program gives us a major advantage over our peers outside the program."
- CLIMB Scholar at UB

"A major strength of The CLIMB Program is the social support that it gives"
— CLIMB Scholar at Northwestern
