DENISHA B.  Transferred Junior  Intended Nuclear Medicine Technology
PLANS FOR AFTER GRADUATION

Job
- Nuclear Medicine Technologist
  - Working in a hospital operating diagnostic machines such as MRI and PET.

Higher Education
- Pharmacy or Physician's Assistant Program
  - I am currently taking prerequisite courses for these programs provided that I decide to go graduate school.
FAVORITE SPORTS TEAM

I don’t currently have a favorite sports team, however, I’ve recently taken interest in the New Zealand All-Blacks rugby team. Before every game they perform a ceremonial Maori war dance to intimidate the opposing team known as Haka.
THINGS I LIKE ABOUT UNIVERSITY AT BUFFALO

- Both campuses are aesthetically pleasing.
- I’ve been taught by some passionate professors.
- I’ve might some interesting people from all over the world.
- It’s a great school.
THINGS I’D CHANGE ABOUT THE UNIVERSITY OF BUFFALO

North Campus
• I’d make the assignments of recitation classrooms logical in respect to the location of the chemistry labs i.e. I wouldn’t assign Alumni 90.

South Campus
• I’d diversify the food options for Goodyear and Clement residents.
# Highlights of Computer Science 101

<table>
<thead>
<tr>
<th>Hardware Wise</th>
<th>Software Wise</th>
