Essays on the Families of Esther Busel and Solomon Felson

Judy Felson Duchan

July 30, 2016

Below are links to various essays on the Busel and Felson Family members. The essays were organized by Judy Felson Duchan and built upon contributions and collaborations of second generation Felson cousins. Also included are the ruminations of Steve Felson about his visits to his 100 year old mother, Virginia and the World War II war letters of Walter Felson.

Deserving special tribute is Nancy Felson Brant (1943-2013), who started us out on this path of remembering our past and whose longtime research on our ancestors has helped us uncover and document our Felson Family roots.

To access the individual essays, click on links below. The first Felson family tree link will get you to the ancestry tree compiled by Nancy Felson Brant. It covers the years 1901 to 2003. The updated tree, compiled by Judy Felson Duchan picks up where Nancy's tree ends at 2003, and continues to 2015.
