On September 18, 1942, Walter Felson left his medical practice in Greenfield, Ohio, for a three year stint in the US Army. During the first year of service, when he was in training, he travelled with his family throughout the United States. He and Roslyn, his wife, reported their experiences in letters written to members of the Felson family—siblings of Walter. Leo Felson, Walter’s youngest brother, kept the letters sent him, and around year 2000 Leo’s son David gave those 1943 letters collected by Leo to me (Judy Felson Duchan), Walter’s daughter.

In January of 1944, once Walter’s army training was over, he and his company were sent overseas, first to North Africa and then to Italy. During this time between 1944 and 1945 he continued his letter writing, often writing more than once a day, recounting his experiences as a captain and medical doctor in the army’s 85th Infantry Division of Company C. Most of the letters were to Roslyn, with the expectation that she would forward them to the rest of the family.
Some were addressed directly to the family, as a group (“Dear Gang”). Roslyn saved most of these letters. Because they were so vivid and so regular, they became highly anticipated and valued commodities among family members and their friends.

I have scanned the 1943 letters in Leo Felson cache as well as the 1944 and 1945 letters in Roslyn Felson’s collection. Another set, with many duplicates of those in Ros’s collection, were saved by Evelyn Felson, Leo’s wife. She donated these to the the American Jewish Archives in Cincinnati, Ohio as part of the papers of Leo Felson. There are 34 letters in Evelyn’s cache that are not in Leo’s or Roslyn’s sets. I hope to scan these 34 at some point adding them to those here.

The total number of letters scanned here are 133. They are organized by date. Below is a table of contents containing links to each letter along with a short description and key-word table. Click on the dates to get to the individual letters.

If you want an overview of the experiences of Walter Felson and his family during these war years, have a look at my essay where I trace his war journey and give a synopsis of the highlights. I drew much of the information in the essay from the his letters in the collection below. Walter’s letters do not include names of particular places because of army censorship restrictions. I have filled in the names of places in my essay drawing from the writings of others, especially from the book by Paul Shultz: The 85th infantry division in World War II.

1942—1 letter

1942-10-07 To brother Chippy, life at Camp Grant
