

# Schmitt Vol. 1

293 G. had twice vetoed Austrian warlike actions against S in the past two years.

WII says he must consult B-H before answering A. But after lunch:

294 WII July 5 promises full support to A. including event of R-A war. But R is not prepared for war. B-H will surely agree.

295 WII had been told of A intention to attack S

299 WII - B-H - Zimm. WII: G. must support A. B-H accepts WII's decision.

301 WII: F + R not prepared for war, war not probable; but possible.

317 Szogyeny's interp: G. thinks R will wage war in a few years, is not prepared now. May not support S militarily now. Br. will not fight. 320 Zimm: R is a bluffer, will not fight

327 Jagow 18 July justifies supporting A: alt. is internal A. decay, loss of A as ally.
