Julia Lindner
Freshman
Speech and Hearing Research
After I graduate from UB in 2013 I want to go to the UB graduate school for Audiology.

In graduate school I will get an AuD in audiology and learn the basics of running a business; this will eventually help me to open my own audiologist clinic.
My three favorite sports teams are:

- The Devils
- Manchester United
- The METS
The Things I love about UB are:

- The big school, very diverse
- The friends that are more like a family
- The good professors
- The sports teams
- Many activities and clubs to do
If I were to change a few things about UB I would want to end all the construction going on. I think the campus was beautiful and big enough before they decided to make it bigger. Another thing I would want to change is the condition of the bathrooms in the dorms. They aren’t very nice and could use a update. And lastly I would want to add more trees to the campus to make it more green and appealing.
In CSE I learned many things that will apply to my future. I have learned about PowerPoint, Excel, and Word, which will improve my resume. I also learned about the history of computers, how the internet works and different parts of the computer; like transistors and motherboard.
