CAREER OBJECTIVE

Web Programmer. Seeking a position where I can either create a new corporate web presence or assist the current team in enhancing the company's web presence.

EDUCATION

STATE UNIVERSITY OF NEW YORK AT BUFFALO
School of Management: Bachelor of science in Business Administration with a concentration in Management Information Systems degree. Expected Graduation May, 2000.

WORK EXPERIENCE

SUNY BUFFALO-HUMAN RESOURCE SERVICES (March 1998 to Present)
WEB DEVELOPER
- Designed and programmed a web presence for the four units of UB's Human
- Resource Services department. While there developed a submission process in order to keep track of requests for web site updates.
- Organized meeting and training sessions so that each unit had a full understanding of how to use and take advantage of the potential possibilities of this site.

ADVANCED COMPUTER SERVICES (February 1996 to Present)
OWNER/OPERATOR
- Managed the operations of a small computer consulting, sales and repair business.
- Oversaw financial aspects of a business which showed a 50% growth in revenues each year based on internet advertising and in-house made brochures.
- Managed to balance time required for school, work, and business consulting duties.

SUNY BUFFALO-UNIVERSITY FACILITIES (September 1997 to September 1998)
STUDENT ASSISTANT
- Performed general office duties which included copying and answering phones.
- Special duties included compiling surveys then preparing reports based on the survey results and computer upgrades, repairs, and technical support for office members.

COMPUTER SKILLS

Microsoft Windows 98/NT	NetObjects Fusion	Allaire Cold Fusion
Microsoft Exchange	Adobe Acrobat	Macromedia Flash
Allaire HomeSite	Adobe PhotoShop	Microsoft FrontPage
OmniPage	Microsoft Office	Corel Draw
Microsoft Publisher	MS Internet Explorer	Netscape Navigator

AFFILIATIONS

Microsoft Site Builder Network: Demonstrated advanced skills in web design and programming.
MISA(Management Information Systems Association): Assisted in functioning of the club which included special Year 2000 projects, computer software instruction, and web site organization.
