My Major

• My major is Pharmacy
• I am currently fulfilling my prerequisites
• This is my last year as a UB undergrad next year
  I will be a Graduate student
• I have 4 more years left at UB before I can graduate
After I graduate I am hoping to work at a Pharmacy near my home so I can spend more time with my family. After working at a Pharmacy for a year or two I am hoping to learn enough to be able to open my own Pharmacy. In the late future I want to be able to have a chain of Pharmacy's.
Unfortunately I do not really follow sports as much as I used to. If I were to pick a favorite team, it would be the New York Knicks. I am a fan of Jeremy Lin, no it is not because we are both Asian.
University At Buffalo

What I like

- Food
- People
- Staff
- Eventful
- Lecture Halls
CSE 101

Favorite Things I have learned

• Security is very Important
• Our Internet is very venerable to attack
• How to check if your computer can connect to your local area network
• RAM will make is what will improve the speed of your computer
• I can run Different Operating systems on my computer for FREE using Virtual Box!
