## Five index styles for a recorded conference session

The Oral History Association Annual Meeting, October 12, 2021

### Oral history Timecode Indexing and Annotation: Decisions Behind an Emerging Art

- **Aviary Access:**
  - OHMS-style and WebVTT format [Indexes](#) (select from dropdown)
  - Automatic Speech Recognition (ASR) [Transcripts](#) (select Trint or VTT)
- **Print-form Index (reproduced from [2023 OHR article](#), Figure 1.)**

#### **The Oral History Association Annual Meeting, October 12, 2021**

##### **Oral history timecode indexing and annotation: Decisions behind an emerging art**

#### **0:00 Introduction: Oral history timecode indexing & annotation**

Douglas Lambert introduces participants, shares indexing example, terminology

#### **8:17 Roundtable Part 1: Indexing systems and basic practice**

Crispin Brooks: The Shoah Foundation; Joey Balfour: National WWII Museum; Doug Boyd: Nunn Center, UK libraries, OHMS

#### **39:05 Roundtable Part 2: Evolution of systems and indexing methods**

Brooks, Balfour, Boyd

#### **59:26 Questions from the chat (and panel responses)**

On training; open-source software  
(Lambert, Balfour, Brooks, Boyd)

#### **1:09:46 Brooke Bryan's commentary and chat questions roundup**

OHMS in pedagogical contexts, what makes oral history distinctive (Bryan)

#### **1:17:06 Discussion**

Compatibility/portability of data; Release forms and their limits; Bryan invites Michael Frisch to comment; Value of TOC and transcript "digests;" Interviewer as indexer; Smaller collections; Software development and changes (Online attendees, Boyd, Balfour, Lambert, Bryan, Brooks, Michael Frisch)

#### **1:37:48 Wrap Up**

Byran, Lambert
