Client Recap

## A little about myself...

My name is Wyatt Hashem, company founder and president. I am currently a sophomore here at UB, but once I graduate, I am looking to enroll in the ITM master's program. My favorite thing about UB is how diverse and friendly the culture is, and I believe meeting students from all walks of life is an invaluable experience. I do not have a particular favorite sports team, as unfortunately I am not a very big fan of sports.

# Thus far in MGS 101

I have learned a great deal already in MGS 101, which includes, but is not limited to:

- The history of computing and computers
- The potential future of computing
- Computer hardware architecture
- The potential for AI in the information technology field
- Basics of information technology

# Company Information

What do we provide to you?

# Services

## Risk Assessment

- We will assist you in identifying any potential threats, risks, and vulnerabilities within your data and digital assets.

## Security Awareness Training

- It is important for your employees to know how to safely handle and use company data. We will ensure your team is trained to the same security standard as our own.

## Incident Response Training

- We will keep your team informed and prepared on how to respond to any cybersecurity incidents that may occur within your company.

# Services continued

## Third-Party Risk Assessment

- Ensuring that your vendors and/or partners live up to the same security standards as you will help to maintain a secure digital environment for your company.

## Security Audits

- Our experts will evaluate your company's pre-existing security controls, and rate you on the effectiveness of these controls, as well as provide recommendations for improvement.

## Penetration Testing

- We will scan and test for any vulnerabilities in your security controls by attempted to access them as if we were another bad actor and provide you with solutions to remedy these vulnerabilities.

# Hours of Operation

	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
Walk-in	10am-4pm	10am-4pm	10am-4pm	10am-4pm	10am-4pm	10am-2pm	Offices Closed
Phone Consultation	24 hours a day, 7 days a week						

- Our mission is to create a business environment for all that is free of cyber threats.
- Our vision is to transform your business into a digital safe haven. We will protect your data in a secure vault that is safe from outside threats.

### Professionalism

- We strive to maintain top-tier professionalism in all facets of our operations, including our work environment, customer relations, and the services we provide.

### Security

- Keeping your system locked down and out of reach of any potential threats. We guarantee that your company will be protected with the most cutting-edge techniques available.

### Customer Service

- What we do would not be possible without you. So, we want to ensure you always have the best possible experience working with our friendly, and reliable staff.
